John R. Oishei Children’s Hospital
The vision of the new Oishei Children’s Hospital is to be recognized as the innovator, highest-quality, highest value provider and partners, and regional referral center for women’s and children’s care at Kaleida Health, Western New York and beyond.

Know the Facts:
- Location: Ellicott and High Streets - on the Buffalo Niagara Medical Campus
- The proximity to campus partners will create integral links with the Buffalo General Medical Center, Roswell Park Cancer Institute, Gates Vascular Institute, the new UB Medical School and more, resulting in enhanced quality of care.
- Connected to Conventus, the future home of our outpatient specialty clinics. Conventus faces Main Street and will be more accessible and convenient for our patients and our families.
- 410,000 square feet; 12 stories (100,000 square feet in Conventus building for ambulatory physician office space)
- $267 million budget
- 185 planned inpatient beds
- Dedicated space for Family Support Services, focusing on patient and family centered care.
- Building designed around the specific needs of the pediatric population and their families; promoting healing and recovery through artistic engagement, therapeutic play, education and support for families.
- Only center in the region with pediatric specialists who can care for all children (0–21) and their families.
- Only access point for pediatric critical care, Level III neonatal intensive care, and Level 1 pediatric trauma care in and for Western New York.
- The Ellicott Goodrich Garage will undergo a redevelopment, resulting in an increase of over 900 additional spaces to support the growing need.
- Designed by Boston, MA architectural firm, Shepley Bulfinch.
- Construction management by Turner Construction Company.
- 34 month construction schedule (estimated completion and turnover of site November 2017)
- 1,200 workers with 750,000 man hours on the project

Founded in 1892, Women & Children’s Hospital of Buffalo is a 200-bed Kaleida Health facility and teaching hospital for the University at Buffalo Jacobs School of Medicine and Biomedical Sciences. As the regional center for comprehensive and state-of-the-art pediatric and women’s services, and one of only 43 freestanding pediatric hospitals in the nation, our entire facility is designed with the child and family in mind. Through collaboration with the University at Buffalo and our expert pediatric, surgical, maternal, fetal and OB/GYN subspecialists, we serve patients in Western New York and beyond with the best practitioners and services available.
