Can you give an overview of Buffalo General's experience with COVID?

- How did the hospital prepare?
- This was a novel experience for all of us. What resources did you draw on when you were making plans and decisions? (e.g. local colleagues, NYC hospitals)
- Did the rapid publication of articles in the journals help or hurt?

- Did this change how you look at hospital preparations for future challenges?
- How are you preparing for the next wave/influenza?
- Lessons learned/What would you do differently now?

Buffalo General Medical Center *TODAY*

- Are things back to normal operationally?
- Is the Emergency Department seeing the same volume/case mix as before?
- Visiting Hours?
- Your first year and a half as CMO
- Upcoming changes/new programs at Buffalo General Medical Center
- 2021 Focus
