KALEIDA HEALTH
www.kaleidahealth.org
Dear Nursing Colleague:

At Kaleida Health we are committed to our nursing staff and all those who are or hope to become a nurse. The intent of this brochure is to provide helpful information that will assist you with professional development, support during a time of transition and offer professional services and support. Please utilize our educators, recruiters, clinical librarians, as well as support staff as resources to ensure you receive the answers and nurturance that is essential for a satisfying nursing experience at Kaleida Health. To be placed on our mailing list and receive our quarterly nursing newsletter as well as information regarding local and national seminar speakers and nursing updates forward your e-mail address to: azmilczarski@kaleidahealth.org or call 887-4860.

Diane Ceravolo, RN, MS, Director of Nursing Practice

Nursing Research Council

This Committee was created to support an environment that enables Kaleida Health nurses to integrate the process of clinical inquiry into nursing practice. Many NRC members have conducted or participated in research studies and thus are available to provide guidance, mentorship and assistance to nurses initiating research projects in conjunction with instructional programs or clinical practice opportunities. Anyone interested in participating in nursing research should contact Peggy Jahn, RN, MS (859-8743) Director of Quality and Patient Safety or Diane Schwartz, MS Library Director (859-1319).

Kaleida Scholars

Academic Coordinator

Kaleida Health has a commitment to nursing education and has established scholarships via an endowment fund to support our nurses in continuing their education. We have several scholarship opportunities available for Kaleida Health nurses who wish to pursue higher education or to enhance their specialty by becoming certified. Scholarship applications will be available in early Spring each year. For further information, please contact Tammie-Jo Graf at 859-8723 or tgraf@kaleidahealth.org.

Hubnet

Hubnet is a shared health information network of the Library Consortium of Health Institutions in Buffalo (LCHIB). Hubnet provides access to:

- Literature searching in databases such as Medline, CINAHL, PsycInfo and more
- Electronic (full-text) articles in more than 160 journals.

Employee Assistance

Program (EAP) Services

Contact EAP at (716)842-1990

EAP can provide assistance when you are feeling overwhelmed by a life crisis or provide therapeutic intervention for stress associated with everyday life. Employees are eligible for a free assessment and up to three free visits. Extended counseling is also possible. Employee Resources, Inc. is a local, private corporation that is independent of any employer, insurance company, or treatment provider. Childcare, elder care service, as well as financial and conflict resolution are available to you through our employee assistance benefit. Confidentiality ensured.

Looking for help? Don't Be Afraid!

Testimonial:

“EAP may have the help you need. I have been a registered nurse at Kaleida Health for the past 17 years and took advantage of the EAP benefit 14 years ago, on my own, with great satisfaction. Even with 3 years of experience, I considered myself a new nurse and was engaged to be married. It was overwhelming. I turned to EAP for premarital advice and support. I am thankful I did. It was strictly confidential.”

With the ongoing changes and demands that are occurring in healthcare, the responsibilities that we have outside of work including caring for our children and aging parents and the challenges of everyday life can cause stress that may be inhibiting your ability to do your best. Think you could use support? Be proactive and know that EAP is a benefit that you have access to.
