Secure a New Graduate Nurse Position NOW!

Seniors, our Nurse Recruitment Team is available anytime to discuss how you can secure your first nursing job in the premier health system in Western New York – Kaleida Health.

Graduate Nurse Direct Unit Placement

WHO: Students who know the facility, specialty, and unit where they would like to work. Opportunities available across all acute care locations.

Specialty Float Pool

WHO: Students who have an idea of the location or specialty that would be their best fit but are excited by the opportunity to gain experience across a variety of care areas. Opportunities include: critical care generalist, maternity, telemetry and pediatrics.

Graduate Home Care Placement

WHO: Students looking for the opportunity to work with diverse patient populations through the continuum of their care. Home care placement provides students a broader skill set, and diagnosis-specific hands-on experience in an at-home setting.
