For more than 155 years, the hospitals and healthcare facilities of Kaleida Health have been providing quality care to the communities comprising the eight counties of Western New York. We are the largest healthcare provider, the largest private employer in the area and the premier teaching affiliate of the University at Buffalo. We are affiliated with Great Lakes Health System of WNY, the entity integrating Kaleida Health, ECMC and the University at Buffalo.

ATTENTION: If you speak a language other than English, language assistance services, free of charge, are available to you. Please ask your care team.

Taking care of our community means having a presence around our region. Millard Fillmore Suburban Hospital has built a strong reputation for providing high quality, compassionate care and serving as a vital health partner to Western New York. With a full range of services and exemplary team of physicians and staff, Suburban delivers on Kaleida Health's promise of excellent care.

**ABOUT MILLARD FILLMORE SUBURBAN**

Millard Fillmore Suburban Hospital (Suburban) is a full service, 265-bed acute care teaching hospital. Located in Williamsville, one of Western New York's fastest growing and safest suburbs, the facility is proud to serve the local community and nearby areas.

At Millard Fillmore Suburban Hospital (Suburban), we offer orthopedic services that exceed those of a typical community hospital. With the large number of private orthopedic physician groups choosing Suburban as their hospital of choice, patients can trust their surgery is in the hands of experts. Our orthopedic services are consistently ranked among the best in Western New York – our patients have even ranked the orthopedic surgeons at Suburban in the top 3% nationally.

We're proud to offer the amenities, service and expertise that make a difference for our patients, including:

**LOCATION**

Millard Fillmore Suburban Hospital is located close to a variety of restaurants and shopping with nearby access to the New York State Thruway (I-90) and Youngmann Expressway (I-290). The hospital boasts many amenities that make being a patient or visitor an easier, more comfortable experience. While ALL parking at Suburban is free, we also offer valet parking for those who want the convenience of having their car parked and picked up for them for a minimal fee.

### PRE-OPERATIVE CLASSES

Patients get to know the orthopedic clinicians at Suburban in preparation for an elective surgery with a comprehensive pre-operative class. Each individual that attends the class meets with some of the therapists, care coordinators and nursing staff that service the orthopedic unit to discuss:

- how to prepare for surgery
- what to expect while in the hospital if required to stay
- specific needs after surgery, including therapy and discharge plans

For more information or to register for a class, call (716) 568-3540.

### PRE-ADMISSION TESTING

All surgical patients are encouraged to have their Pre-Admission Testing done at Suburban. This allows greater continuity of care by ensuring we have all the current medical information and lets our patients get acquainted with the hospital prior to their surgery. Patients are scheduled approximately one to two weeks prior to surgery, and receive a physical examination and any necessary tests such as blood work, urinalysis, chest X-ray or an EKG all in one place. Results are sent to their physician's office.

### EXPERIENCED ORTHOPEDIC TEAM

The orthopedic surgical teams at Suburban are highly-skilled, experienced professionals who perform over 1,000 hip and joint replacements each year, in addition to many other advanced orthopedic procedures.

Following surgery, dedicated orthopedic nurse practitioners provide personalized post-operative medical care along with nurses and therapists specially trained in orthopedics with several decades of experience in the field. All orthopedic clinicians receive additional training on new techniques and technology regularly.

Some procedures performed here include:\*

- Total knee and hip joint replacement (including anterior approach for hip)
- Joint revisions
- Shoulder replacement
- Rotator cuff repair
- Labral repair
- Subacromial decompression
- Arthroscopic hip, knee, elbow, wrist and ankle surgeries
- Knee ligament repairs of ACL, PCL and MPFL
- Simple and complex fracture surgeries
- Hand surgery

\*If your surgeon recommends you as a candidate for same-day surgery, you will go home the day of your surgery.

### STATE-OF-THE-ART OPERATING SUITES

Millard Fillmore Suburban Hospital boasts 13 state-of-the-art operating suites, featuring computerized navigational equipment for the most precise fitting of artificial knee joints, specialized lighting, audio/video integration, touch screen paging system and a variety of clinical equipment. The management systems, or booms, installed in the operating rooms are moveable equipment towers suspended from the ceiling, making the environment much safer and more efficient for the surgical team.

### MODERN FACILITY AND COMFORT

Throughout the entire procedure, loved ones are kept up-to-date on a patient's status and whereabouts with our white board tracking system, all while they wait in our comfortable surgical waiting area with wireless access and computer charging stations.

If a hospital stay is required after surgery, the orthopedic unit has 13 private and 12 semi-private rooms featuring floor to ceiling windows, flat screen TVs, and hotel-like furnishings for a relaxing stay.

A physical therapy suite is located steps away from the orthopedic patient rooms. This bright, cheerful room is equipped with everything needed to start patients on the road to recovery and practicing the important tasks needed to return home.

### VISITORS

Suburban makes it convenient for family and visitors to find their way to their loved ones. After checking in at the information desk and receiving a pass, orthopedic visitors can use the elevators immediately to the left upon entering the main lobby or those just outside of the Gift Harbour.

Visitor guidelines:

- Only two visitors are allowed per patient
- No visitors under age 14
- Every visitor should have a guest pass

General visiting hours are from 11:00 a.m.-8:30 p.m.

Intensive Care Unit – please check with nursing staff to obtain specific visitation guidelines.
